Aftercare guide

Take care of your tattoo for the best result and lasting healing. These steps are simple but essential: they decide how sharp your tattoo will look.

First 24 to 48h

Keep the Tatoofilm on for 2 to 24h

Peel it off gradually under cool running water.

2 to 24h after

Clean and moisturise morning and evening

pH-neutral soap and Cicaplast B5 for two weeks.

2 weeks

To avoid while healing

No pool, sea or bath

Prolonged soaking softens the scabs.

1 month

Limit intense sport

Sweat irritates the healing skin.

1 to 3 weeks

Protect from the sun - for life

SPF 50+ every time the area is exposed.

SPF 50+ for life
